

## Option Attachment

---

### XY-500N

#### X-Y Stage

#### [Applications]

- Position fine parts for compression
- Position electric parts on PCB for tensile force.

#### [Features]

- Lower height for large head-room of vertical test stands.
- Metal fixtures are attached.
- Adjustable fixed position to a test stand in the depth direction.

**[Model]**

<b>Model</b>	<b>Capacity</b>
XY-500N	Tensile force: 500N Compression: 1000N

**[Specifications]**

<b>Capacity</b>	Tensile force: 500N Compression: 1000N
<b>Stroke</b>	X-axis, Y-axis each +/-30mm
<b>Feeding method</b>	Feed screw
<b>Travel</b>	0.8 mm / every single turn of the knob
<b>Table</b>	See dimensions
<b>Dimensions</b>	See dimensions
<b>Weight</b>	Approx. 1400g
<b>Accessories</b>	Two metal fixtures. Instruction manual for installation
<b>Force gauge</b>	Imada brand manual/motorized test stand Not compatible for KV-50N and every horizontal test stand.

We offer you some customize unit under your wish. Please contact for details.
